Projects

Team Projects

🔄 Clone of Befakoof.com

- Bewakoof.com is an E-Commerce website, where could buy a varieties of clothes of different category. This is the Clone of Bewakoof.com which was given by Masai school during the unit-4 curriculum. We have taken the challenge to complete the project in 4 days and successfully completed in a deadline time. I have done payment page and address page.

🔄 Food App

- It is an online food order website where users can easily order food. Team Projects There were five members in this project. I have done the payment page . Also done the checkout and address page where user can fill the shipping details and payment details and go for payment.

🔄 Wanderlust

- It is an online hotel booking and tour Website. By using this website one can book destination and hotels for him/her for as long as they want. You can book the destinations around the world. There were 5 members in this project and I have done Booking page in this project.

Solo Project

🔄 Roll the Dice game

- It is simple to use and one can use this to decide the winner. In this game there are three players and at a time one will be winner. When you will click on the Roll Dice then three dice will be rolled out and result will be on your screen.
